

The natural way to calm your dog

Reasons to choose YuCALM Dog

- ✓ A complete formula to support a calm and happy dog – that's suitable to use short and long term
- ✓ A unique formula with scientifically proven ingredients
- ✓ Safe and all-natural – it calms without sedating your dog
- ✓ It can be used as part of a longer-term behaviour therapy programme to help you and your dog enjoy more out of life, together

DID YOU KNOW ?

YuCALM Dog is a triple-action natural calming supplement for dogs. As well as reducing anxiety and extreme reactions to calm your dog, it unlocks chemicals in the brain to support your dog to feel happier and more playful.

PREMIUM, ALL NATURAL SUPPLEMENTS FOR PETS

Did you know that YuCALM Dog is just part of the Lintbells range? Our high quality products help dogs, cats and horses look good and feel great, with supplements to boost coat condition, aid stiff joints and balance sensitive digestion. Explore them all at www.lintbells.com

Your dog doesn't have to feel anxious or fearful – a little natural help can make a real difference to their quality of life, especially if you work with a specialist vet or behaviourist too. We recommend using the register of **Certified Clinical Animal Behaviourists (CCAB)** to make sure you see someone with the right skills, knowledge and experience.

Let's talk it through

Here at Lintbells, we're a friendly bunch of animal lovers – from our warehouse and office team to our animal nutrition specialists and vet advisors. And we really love talking to owners about their pets. We're all about making pet health simple, so please give us a call about what's happening in your dog, cat or horse's life – we'll always try our utmost to help.

Does your dog get stressed or anxious?

Modern life can be stressful for dogs. According to a report by the PDSA*, 80% of dogs can show signs of anxiety or fearfulness – with triggers including other dogs and people, being left alone, loud noises, new situations, fireworks and travel.

Could a calming supplement help?

YuCALM Dog helps dogs cope when they're feeling anxious or stressed. As well as providing calming support in challenging situations, it can be used as part of a longer-term behaviour therapy programme.

Spotting the signs of a nervous dog:

- ✓ Quivering or panting when it's not to do with the weather
- ✓ Restlessness and hiding
- ✓ Tucked tails and ears held flat against head
- ✓ Toileting or destructiveness in the house
- ✓ Excessive barking and aggressive responses

YUCALMTM Dog

Natural calming for stressed or nervous dogs

Many dogs feel anxious in day to day life or are fearful towards specific triggers. By supporting natural calming pathways in the brain, YuCALM Dog is an effective way to help reduce stress and support dogs to become happier and more playful. Made from all-natural ingredients, you can use it every day.

HELPS REDUCE STRESS

Lemon Balm works on GABA levels to make your dog feel more relaxed, soothing stress and encouraging calm behaviour.

SUPPORTS CALM BEHAVIOUR

L-Theanine offers natural calming properties that support the production of calming compounds such as serotonin. It also supports the production of dopamine to maintain levels of hormones responsible for happiness. B vitamins support healthy nerves and brain function, reducing excitability and improving concentration.

EASES ANXIETY

Our special blend of natural fish protein hydrolysate supports your dog's brain, helping calming signals find the right spot. It also supports GABA and dopamine levels for a 'feel good' effect.

✓ Helps reduce stress

✓ Supports calm behaviour

✓ Eases anxiety

✓ Pack size: 30, 60, 120 tablets

DAILY FEEDING GUIDE

YuCALM Dog is a tasty tablet – feed it as a treat, or add to their food at mealtimes. If your dog is taking more than 1 YuCALM Dog tablet a day we would recommend spreading the daily recommendation throughout the day.

DOG SIZE		DAILY AMOUNT
VERY SMALL DOGS (up to 7kg)		½ tablet
SMALL DOGS (8 - 15kg)		1 tablet
MEDIUM DOGS (16 - 30kg)		2 tablets
LARGE DOGS (31 - 45kg)		3 tablets
VERY LARGE DOGS (over 45kg)		4 tablets

We understand that every dog is different and because of this results may vary. Although you may see results after a few days, we recommend using YuCALM Dog from 3 to 6 weeks to see the full benefit.

TOP TIP

Build on your positive relationship with your dog through fun activities such as reward-based training games and play! Avoid any form of punishment including cross words, since this can cause an anxious dog to feel more worried, confused and even worsen fearful behavioural responses.
